

Interdisciplinary Project

Prototyping Realities - Laboratory For Artistic Research
elective modul, master program, wise25/26, (de/eng)

Are you looking for a seminar that asks more questions than it provides answers? You are driven by the 'how' and love structures, details and meta-levels? Would you like to engage in artistic experimentation and establish new methods beyond traditional architectural education in the interdisciplinary field? Then come to the AiA's Spatial Worliding Studio and find out...
