

## **Prof. Arch. Raffaele Amore**

*University of Naples Federico II*

---

Architect and PhD, from 2016 to 2021, he was an Assistant professor (type A) in Architectural Conservation at the Department of Architecture of the University of Naples Federico II.

Since October 2021, he is an Assistant professor (type B) in Architectural Conservation at the same Department. Since November 2018, he is qualified as an Associate Professor.

His main interest in research is on the historical, methodological and applicative aspects of architectural restoration, with a focus on the historical evolution of the restoration discipline in the period between the two world wars - concentrating on traditional building techniques and urban history.

He is a member of the research institute CIRICE (Centro Interdipartimentale di Ricerca sull'Iconografia della Città Europea Università degli Studi di Napoli Federico II) – thus, conducting research on (i.) the city of Naples and the restoration works by Gino Chierici as well as on (ii.) the history of constructions aiming at assessing the vulnerability of heritage buildings located in seismic prone areas so conceive more sustainable reinforcement techniques. Further to this, he is conducting studies on the use and enhancement of the archaeological area of Pompeii as well as the color of historic building's facades.
