Emergency Measures Theme Request Sheet

Professur
für Urban Design
Labor für die
alltägliche Stadt

1. Title of the Project: ***Donaukurier Ingolstadt***
2. Participants:
3. Please select one from each column of the following table

Topic of the project
We are dealing with this ...

☑ site: ***Donaukurier Ingolstadt***
p.e. ideas to prevent the destruction of a certain building, biological feature, or social context; or ideas to build/grow such a feature

O type:
e.g. cooperative dwellings, suburban office estates, single family houses

O Initiative:
that works towards new, non-polluting and non-exploitative living patterns, and that is anchored in space (cooperative, NGO, ...)

type of crisis
With our project we want to tackle the ...

☑ climate crisis
The climate crisis is a term for the ecological, political and social crisis associated with global warming. (Wikipedia)

O environmental crisis
An ecological or environmental crisis occurs when changes to the environment of a species or population destabilizes its continued survival. (Wikipedia)

☑ housing crisis
The term housing crisis refers to acute problems with the provision or market for shelter and lodging. These include shortage and affordability crises as well as financial crises related to the real estate sector. (Wikipedia)

O crisis of democracy
As rightwing populism seems to take over Europe we postulate a new crisis of democracy. How could we support democracy in urban design?

type of project
We want to do this with a ...

☑ plan
An urban design proposal on a certain site. As a matter of principle, we avoid land take and the creation of impervious surfaces as well as demolition.

O strategy
develop a framework or strategy outlining principles and guidelines for the desired change in a given spatial setting

O intervention
create an intervention in urban space through iteration and reflection that addresses an urbanistic issue. Only BA Thesis, only Summer semester ("Interventionsklasse").

O start-up
develop an urbanistic business idea, or an idea for a new institution.

4. **What is the occation?** Why is your project necessary and why now?

The Donaukurier Site in Ingolstadt is about to close for production. Leaving the extensive facility without a usage. The aim of this project is to evaluate different posibilities for re use and come up with a comprehensive design for the site on the urban design scale.

5. **How do you want to accomplish this?** Which methods do you want to use and with which partners do you want to work?

After a intensive inventory at site and the sighting of all available data for CAAD, we start analysing the site as wall as the surroundings for strengthes and weaknesses as well es possible future usages. We formulate guidelines for future devolopment and translate these into a comprehensive Design.

6. Are you open for more Participants? ☑ yes O no
