EMERGENCY MEASURES THEME REQUEST SHEET

Professur
für Urban Design
Labor für die
alltägliche Stadt
TUM

1. Title of the Project:

2. Please select one from each column of the following table

Topic of the project
We are dealing with this …

O site:
p.e. ideas to prevent the destruction of a certain building, biological feature, or social context; or ideas to build/ grow such a feature

O type:
e.g. cooperative dwellings, suburban office estates, single family houses

O Initiative:
that works towards non-polluting and non-exploitative living patterns, and that is anchored in space (cooperative, NGO, etc.) ***Not for first time studio BA students!***

planetary boundary (Stockholm Resilience Center)
With our project we want to help fixing …

O Climate change
Increased greenhouse gases and aerosols in Earth's atmosphere trap heat that would otherwise escape into space. The climate change planetary boundary assesses the change in the ratio of incoming and outgoing energy of the Earth. More carbon dioxide in the atmosphere and more trapped radiation causes global temperatures to rise and alters climate patterns.

O Freshwater change
The alteration of freshwater cycles, including rivers and soil moisture, impacts natural functions such as carbon sequestration and biodiversity, and can lead to shifts in precipitation levels.

O Land system change
The transformation of natural landscapes, such as through deforestation and urbanization, disrupts habitats and biodiversity and diminishes ecological functions like carbon sequestration and moisture recycling.

O Biosphere integrity
The diversity, extent, and health of living organisms and ecosystems affects the state of the planet by co-regulating the energy balance and chemical cycles on Earth. Disrupting biodiversity threatens this co-regulation and dynamic stability.

O UN-Sustainable Development Goal Nr.

type of project
We want to do this with a …

O plan
An urban design proposal on a certain site. As a matter of principle, we avoid land take and the creation of impervious surfaces as well as demolition.

O strategy
develop a framework or strategy outlining principles and guidelines for the desired change in a given spatial setting

O intervention/ tactical urbanism
create an intervention in urban space through iteration and reflection that addresses an urbanistic issue. ("Interventionsklasse"). ***Not for first time studio BA students!***

O start-up
develop an urbanistic business idea, or an idea for a new institution. ***Not for first time studio BA students!***

3. What is the occation? Why is your project necessary and why now?

Don't forget the second page!

EMERGENCY MEASURES THEME REQUEST SHEET

4. How do you want to accomplish this? Which scientific or artistic methods do you want to use and with which partners do you want to work?

5. Participants (min.2, max.4):

name	Matrikelnummer	e-Mail	program	semester

6. Are you open for more participants? (Yes if you apply alone) O yes O no

7. Create a A3 poster or tumbnail to represent your project.

8. Sent everything to info.ud(at)ed.tum.de

Thank you! we will get in touch with you shortly!
